A Force to Be Reckoned With

Straight out of Cleveland, the birthplace of rock 'n' roll, Gravity is causing quite a stir with their energetic and engaging music. Their live shows continue to receive rave reviews from the progressive rock community.

The band has already opened for international acts such as *Dream Theater*, *Symphony X*, *Kamelot* and *King's X*, and they have won numerous competitions in Cleveland, including the *Live Nation 2007 High School Rock Off* at the Rock 'n' Roll Hall of Fame where they placed first out of over 200 Ohio bands. In 2009, they performed at the *Three Rivers Progressive Rock Festival* in Pittsburgh alongside some of the most well-known US prog bands.

In 2007 they released their first CD entitled *Into Oblivion*, and they are currently getting ready for the release of their newest CD *Midnight Sonata* in late 2010.

"The band kick ass for their ages, showing style and maturity. I had to do a little research just to check that what I'm hearing here is for real. A bright future is ahead of them..."

Fireworks Magazine (UK)

"... [The band] tackles a style of technical prog-influenced instrumental hard rock that's never been mainstream except in music stores packed with aspiring Satrianis. Even more astonishing is that the band approaches it with sophistication well beyond its years."

Cleveland Free Times Magazine (US)

"These guys are killer! Best opening act of the tour!"

International metal act KAMELOT

"Amazing musicians! So impressed... totally blown away!"

Live Nation 2007 High School Rock Off Judge

"This band is just crazy... I don't watch many bands before I play my own gig but I couldn't take my eyes off the stage when they rocked the house."

Casey Grillo, drummer of KAMELOT
